PRODUCT SUMMARY

Training

We provide a range of specialized IT and application courses from Microsoft such as Microsoft Office and Microsoft Technical Certifications in Servers, Network, Security and Databases. Training on other operating system platforms are conducted based on our clientele request. Besides this, we conduct various business and management skills training suited to the organization's needs.

SAP eAcademy

Today, SAP is the world`s business solution leader with products for virtually every aspect of business operations. Companies and industries relating to Telecommunications, Information Technology, Banking and Finance, Trading and Management are from a long list of SAP users. It is no secret that SAP CONSULTANTS are the most highly paid consultants in the ERP industry.

The eAcademics are designed to improve the convenience and cost-effectiveness of SAP training for experienced consultants and professionals seeking a career change. The 200-hours course can be completed by assessment over a period of five months.
